Remote Access VPN Setup Guide

Meridian Dynamics Inc. — Internal Document

Setup Steps

Employees connect to internal systems while off-site through the Meridian VPN Gateway, maintained jointly by Information Technology and Information Security.

Step 1: Authenticate using Okta SSO with multi-factor authentication. Step 2: Launch the VPN client and select the nearest regional gateway (Chennai, Bangalore, Pune, Austin, London, Singapore). Step 3: Report connectivity issues to the Service Desk via ServiceNow.
